

## ANNOUNCEMENT

### **UConn Maritime Studies**

### **Paid Summer Tall Ships Internship**

The Maritime Studies Program of the University of Connecticut is offering a paid Tall Ships internship to work aboard a sailing vessel. The internship will run during the Summer of 2025. If you are interested in this internship, you will work with the Interim Director of Maritime Studies, Professor Syma Ebbin, to determine on which vessel you would like to intern. You and Professor Ebbin will also work together to determine the dates of the internship. If you already have a vessel in mind on which you would like to intern, please indicate that on your application—thank you.

If you are interested, please submit the following application. UConn interns earn three credits as MAST 3991. Priority will be given to applications received by March 14, 2025. Applications submitted after that date will be considered only as space allows. See application below. Preference will be given to Maritime Studies students and other students majoring in 4-year degrees at Avery Point. Questions can be directed to Professor Syma Ebbin at [syma.ebbin@uconn.edu](mailto:syma.ebbin@uconn.edu).

Application for  
UConn Maritime Studies (MAST)  
Paid Summer Tall Ships Internship

Instructions: Please provide the information requested. For each question, please submit a well-written statement. Submit your application by email to [syma.ebbin@uconn.edu](mailto:syma.ebbin@uconn.edu). Priority will be given to applications received by March 14, 2025.

Name: \_\_\_\_\_

Address: \_\_\_\_\_

POLS/MAST 3832 and/or MAST 2300E \_\_\_\_

Other MAST courses and/or internships (please list) \_\_\_\_

**Please attach a copy of your resume.**

Answer the following two questions (typed, double-spaced).

1. Provide a clear, full statement explaining why you are interested in interning on a tall ship. If there is a particular tall ship on which you are interested, please include that. Discuss any course work or other experiences you have that might be relevant to tall ship sailing.

2. This internship will require students to work independently and steadily throughout the summer on a project. Please describe any experiences you have had working independently, either in the context of a course or outside of classes.
